OFFICE OF THE SPECIAL
PROGRAMS EXAMINER

Dear Examiner Glick:

Applicants request reconsideration of the decision on their Petition to Make Special and include herewith a copy of the International Search Report and references cited therein along with a PTO form 1449 listing these references of record for the prosecution of this case.

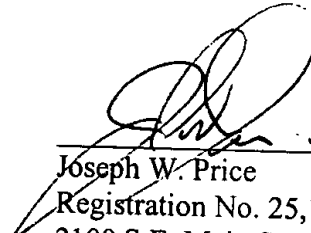

It is believed that this submission provides all of the missing items set forth in the decision on the Petition to Make Special. The International Search Report not only sets forth the references but defines the field of search and the pertinence of the references to the original claims.

If there are any additional questions with regard to this matter, the undersigned attorney would appreciate a telephone conference.

Please charge any additional fees to our deposit account No. 16-2462. A copy of this letter is attached for that purpose.

Respectfully submitted,

PRICE AND GESS
